

AIR BRAKE SEMINARS BASIC AIR SYSTEMS– May 21, 2024

LOCATION: NHMTA TRAINING ROOM, 19 HENNIKER ST, CONCORD, NH 03301

This seminar is first in the series for Air Brake Systems.

This seminar will review how your systems are designed to work.

Learn how to identify the problem the first time, and eliminate needless and costly replacement components.

THIS SEMINAR WILL COVER:

When and where to use air de-icer

Service versus replacement of air compressor

How to clean the system after failure

Difference between an air dryer and an after cooler and the effect on the system

Basic functions of valves and how they relate to brake balance and wear

Identify and troubleshoot the charging, primary, secondary systems, park and emergency systems

Maintenance of Air Systems
